

Three years ago Boxer made a solid commitment to the valuable relationships we foster with both our present and future customers. We built a brand new 10,000 square foot state-of-the-art shop that can handle anything our customers pitch at us. Combine that with over an acre of concrete-paved yard, an eight foot perimeter fence, specialized high-security lighting and an insanely skilled and dedicated crew, and the result? Crating, shipping and warehousing solutions that are the best our industry has to offer.

Boxer Building & Crating is Edmonton's premier crating specialist. For over 15 years, we have beaten every challenge, met every deadline and satisfied every customer. Whether it's oilfield, pipeline, mining or manufacturing, Boxer has the experience and expertise to ensure our customer's high-value goods safely reach their destination packed in crates of exceptional durability and ingenious construction.

At Boxer, our services encompass far more than just crate construction; our shipping solutions include individualized crating design, ocean containers and professional freight packaging, and we specialize in trans-border and overseas crating, requirements and regulations. And our warehousing customers rely heavily on Boxer for custom heavy-duty shelving, skids and storage crates. Better, stronger, faster. That's the Boxer Advantage.
